

MEGBERRY

HANDMADE JEWELLERY

WRIST SIZER

To ensure your new bracelet is a perfect fit when it arrives, be sure to use our wrist sizer.

Make sure you first enter your printer settings and change the "page scaling" option to "none".

Then print this page on a full A4 size paper.

Please note:

This page must be printed at 100%. Do not resize or scale to fit.

If possible use a ruler to check if the Wrist Sizer has been printed properly

How to use the Wrist Sizer:

- Cut out the paper Wrist Sizer along the dotted line. Make a slit where "CUT HERE" is indicated.
- Make sure the numbers are on the outside of the paper. Insert the pointed end of the Wrist Sizer through the slit. Slide your hand into the Wrist Sizer and pull on the pointed end until it fits on your wrist.
- The number that lines up with the edges of the opening is the size of the wrist
- You can also use a tape measure but if you don't have one, take a small ribbon or cord, wrap it around your wrist and measure the length with a ruler.
